

# Key Stage 2 Assessment 2016: National Figures & Heatherley Primary Figures

## New Key Stage 2 assessments in 2016

The 2016 key stage 2 assessments are the first which assess the new, more challenging national curriculum which was introduced in 2014. New tests and interim frameworks for teacher assessment have been introduced to reflect the revised curriculum. Results are no longer reported as levels, and each pupil will now receive their test results as a scaled score and teacher assessments based on the standards in the interim framework.

## National Results and Heatherley Primary School Results

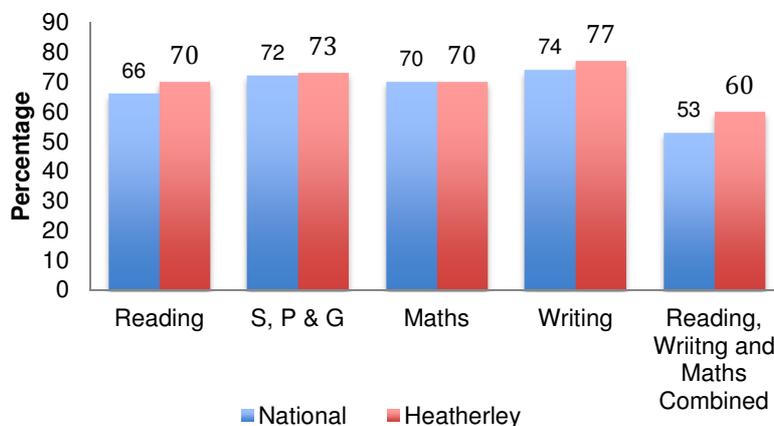

**Nationally 53% of pupils reached the new standard in reading, writing and maths.**

**At Heatherley Primary School 60% of pupils reached the new standard in reading, writing and maths.**

Because of the changes set out above, figures for 2016 are not comparable to those for earlier years. The expectations for pupils at the end of key stage 2 have been raised. Given the differences in the curriculum and assessments, national curriculum levels are not comparable with scaled scores or teacher assessment outcomes.

These changes mean that the expected standard this year is higher and not comparable with the expected standard used in previous year's statistics. It would therefore be incorrect and misleading to make direct comparisons showing changes over time.

## Comparative data

The expected standard in the tests is a scaled score of 100 or above.

Attainment in the tests nationally is highest in spelling, punctuation and grammar at 72% and lowest in reading at 66%. At 74%, attainment in the writing teacher assessment is higher than in any of the test subjects.

This is different from the pattern seen in previous years where attainment at level 4b or above was highest in reading and lowest in grammar, punctuation and spelling.

## Average scaled scores

Subject	Average scaled score	
	National	Heatherley Primary
Reading	103	101
Spelling, punctuation and grammar	104	105
Maths	103	103

The scaled score range runs from 80 to 120 with 100 as the expected standard.

The national average scaled score for the grammar, punctuation and spelling test is slightly higher than for the other subjects.
